## *Youth School-Conference «Current Topics in Organic Chemistry»*

## *September 12-19, 2010*

## *Novosibirsk Akademgorodok*

## Dear colleagues!

We cordially invite you to participate in XIII Scientific Youth School-Conference «Current Topics in Organic Chemistry» which will be held in Novosibirsk, Russia from September 12 to 19, 2010.

The scope of the school-conference includes:

- Structure and reactivity of organic compounds
- Molecular design and synthesis of organic compounds
- Polymers, organic materials and nanomaterials
- Bioactive compounds and medicinal chemistry
- Modern trends in organic synthesis
- Modern methods of analysis of organic substances and materials

The scientific program of the school-conference will include lectures of leading scientists from Russia and abroad, short oral communications, poster session and practical master-classes.

In addition to scientific presentations and discussions, we are planning to organize a number of activities, including a reception, excursions and a conference banquet to promote mutual friendship and exchange of ideas and sport events.

School will be held in picturesque suburbs of Novosibirsk Akademgorodok on the bank of Ob Sea (Novosibirsk Reservoir).

The working languages of the school-conference are Russian and English
